

6-Feb-2015	Speaker	Title of the Talk
09:30 - 09:50	Pratibha Yadav	Does it smell like the host? Host detection by the ovipositor of parasites in the fig-fig wasp system
09:50 - 10:10	Vignesh V	Understanding fig-wasp dispersal across fig-wasp microcosms
10:10 - 10:45	Sandeep Pulla	Edaphic heterogeneity in a dry tropical forest; The role of topography, vegetation and fire
10:45 - 11:00		TEA
11:00 - 11:20	Kunal Arekar	Phylogenetic position and origin of the Capped-Golden langur lineage
11:20 - 11:40	Chinta Sidharthan	Tracing the biogeography of the Indian blindsnake radiation
11:40 - 12:00	Maitreya Sil	Understanding biogeographic patterns in the Indian subcontinent using freshwater snails as model system
12:00 - 12:35	Dr. Praveen Karanth	Species complex and concepts: Vignettes from Indian systems
12:35 - 14:00		LUNCH (@ IISc Guest House)
14:00 - 14:20	Dr. Maria Thaker	Dewlaps in the wind: are lizards also benefitting from clean energy?
14:20 - 14:55	Dr. Jyotsana Dixit	Non-Human Primate malaria status in India using non-invasive technique
14:55 - 15:30	Dr. Farah Ishtiaq	Malaria in birds
15:30 - 16:15		POSTER SESSION cum TEA Poster 1, Poster 2, Poster 3
16:15 - 17:00	Guest Talk Dr. VV Robin	Islands within islands: Ecology, genetics and bird songs reveal differing effects of deforestation on isolated bird populations on sky islands of Western Ghats

7-Feb-2015	Speaker	Title of the Talk
09:30 - 10:05	Prof. Rohini Balakrishnan	Bats, bushcrickets and signaling in a tropical evergreen forest
10:05 - 10:25	Nikunj Goel	Rising differential entropy - Precursor of regime shifts in dynamical systems
10:25 - 10:45	Dr. Siddharthan S.	Endemic radiation of <i>Ceropegia</i> within the Western Ghats
10:45 - 11:00		TEA
11:00 - 11:20	Athmanathan	Group Structures in Heterogenous Populations
11:20 - 11:55	Subhankar & Amith Kumar	Empirical Studies on mixed-species shoaling dynamics
11:55 - 12:15	Boominathan	Impact of river flow modification on estuarine bivalves
12:15 - 12:50	Dr. Hari Sridhar	Studying human social foraging groups in Berlin
12:50 - 14:20		LUNCH (@ IISc Guest House)
14:20 - 14:40	Amithabh Shrivastava	Elephant height sensor
14:40 - 15:00	Manvi Sharma	Measuring fitness payoff of oviposition site selection decisions
15:00 - 15:20	Amit Agrawal	Early warning signals for transitions from savanna to woodlands along a spatial gradient
15:20 - 15:40	Dr. Sabuj Bhattacharyya	Influence of thermal refuge on activity of alpine small mammal
15:40 - 16:00		TEA
16:00 - 16:35	Guest Talk Dr. Smita Krishnan	Pollination services and coffee production in a forested landscape mosaic
16:35 -		Discussion & Feedback
