There is no better symbol of anthropomorphized computers than Heuristic Algorithmic (or HAL) of the epic "2001: A Space Odyssey" by Stanley Kubrick (screenplay by Arthur C. Clarke). This lecture will focus on HAL's legacy and the readings are drawn from a book of that title.

Suggested Readings:

Excerpts, David G. Stork, Arthur C. Clarke, eds. 1998. HAL's Legacy: 2001's Computer as Dream and Reality. The MIT Press.
